Woodio Wall

Design of a new era

Woodio Wall is made for modern interior designers and DIY lovers. Woodio Wall decorative panel gives interior surfaces a stone-like impression without the burden of stone, allowing you to create unique visual décor from traditional to contemporary interiors.

The subtle texture of the Woodio® material won't steal all the attention yet it charms together with the rest of your interiors. Use creatively, for example, as a decorative interior wall panel, table top, bed headboard or as a kitchen backsplash. Your imagination is the limit!

Available in Woodio Core colours

Natural

An organic and harmonious tone of undyed Natural Aspen.

Polar

A warm tone of white with a slight silver undertone.

Char

An elegant charcoal tone of black with a hint of smokey blue.

Woodio Wall120
in Char black as a kitchen
backsplash.

Woodio Wall120
in Natural.

Versatility

Easy to work with

The Woodio Wall panel is easy to cut, install and work with. Normal wood working tools and fixing methods can be used, no special skills or tools are needed.

The surface of the panel is water resistant, easy to keep clean and it can withstand heat and impact. Suitable for most private and commercial interiors, for details see product specifications.

Most construction adhesives or epoxy mortars can be used.</p> <p>The package contains installation instructions.</p> <p>Decorative interior panel only, not suitable for bathrooms. Not suitable for use in the vicinity of gas or wood stoves.</p>

— **Versatile**

One panel, many uses. Woodio Wall is durable, water resistant, heat and impact resistant. Now you can create a stone-like impression without the burden of stone.

☒ **Sustainable**

Minimal carbon footprint. Our production does not require water or energy-intensive phases. Material serves as a CO₂ storage. Burn as energy at the end of the products lifecycle. No landfill waste.

🍃 **Lightweight**

Lightweight compared to traditional stone or ceramic tile materials. This helps us reduce emissions also in logistics.

🧤 **Easy care**

Easy to keep clean. If necessary, clean with a dampened soft cloth and mild non-abrasive dish detergent or soap. That's it!

🔧 **Quick to install**

Easy to cut, install and work with. The panel can be cut with an appropriate saw. Simple and easy to read installation instructions are included with the package.
