

woodio®

MODERN-DAY DESIGN

## YES, IT'S WOOD

*Woodio is a Finnish modern-day interior and design brand that brings together the best of Nordic design traditions and the use of sustainable bio-material innovation in a contemporary way. All our products are made from our signature material called Woodio®.*

## MATERIAL INNOVATION

*The Woodio® material is the world's first 100% waterproof wood composite that offers an ecological alternative to ceramics and stone materials. Our signature bio-material innovation is made from wood chips and resin-based adhesive.*

## PROPERTIES

*Woodio® material is impact-resistant and, in normal use, it is almost unbreakable.*

*Minimal carbon footprint. We hardly use any water in our production, and the process doesn't involve many energy-consuming stages.*

*Woodio products are lightweight and their installation is quick and easy.*

*A dirt-resistant coating makes the products easy to clean. It is enough to use a mild detergent and wipe with a soft, damp cloth.*

## DESIGNED AND MADE IN FINLAND

*All our products are manufactured sustainably, with respect for the environment, at our own factory in Helsinki. The production technology we have developed plays a key role in reducing our carbon footprint. It has been developed in such a way that our manufacturing process does not require energy-consuming stages. Our manufacturing process uses mostly renewable resources, including locally sourced aspen and side streams from the Finnish forest industry.*

COMPANY WITH  
QUALITY SYSTEM

ISO 9001

## PRODUCTS

*The Woodio collection includes washbasins, a toilet seat, a bathtub, accessories and an interior panel. Woodio® material can also be used to make seamless, custom- fitted elements created by woodworkers for various purposes.*

## WASHBASINS

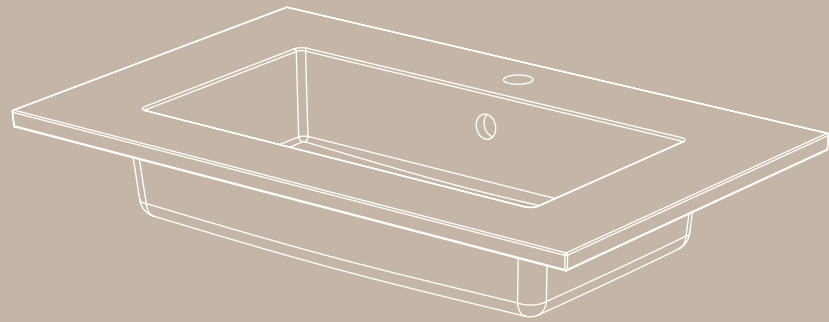

*Woodio® washbasin collection includes 17 different washbasin designs ranging from classic table-top and recessed washbasins to functional wall hung and integrated models. Our washbasin designs stand for modern scandinavian simplicity and function with styles from sophisticated round shapes to minimalistic square form.*

## WASHBASINS

UNIT80 INTEGRATED  
812 mm x 503 mm x 138 mm /  
Height after installation 20 mm  
EN 14688 – CL 10

## TOILET SEAT

W 366 mm x D 542 mm x H 393 mm

Volume of flush water 3 to 6 liters

Waste water connection 102 mm

Flush connection 57 mm

*The wall-mounted Woodio® Block toilet seat is a splendid option for those who appreciate durable, timeless and stylish practical design. This modern, beautifully curved toilet fits perfectly with the bathroom sinks in our collection. As a wall-mounted toilet, it also frees up floor space and makes the bathroom feel pleasantly roomy.*

*The toilet seat comes with a softly closing lid and seat included in the pack. Installation requires a separate flushing system which must comply with EN 14055: 2018.*

## BATH TUB

W 1600 mm x D 700 mm x H 590 mm

Capacity 257 l

*The free-standing Woodio® Flow bathtub is a real showstopper in any bathroom. Its softly modern, finely crafted design language brings a personal and luxurious feel to your bathroom.*

*As a free-standing bathtub, it is easy to install and does not require any special equipment or adjustments to the structures in your bathroom.*

*A normal bathtub faucet and floor drain will work just fine.*

*The package contains a drain valve, a plug and drain pipe connectors. Black or white stainless steel base and adjustable legs can be chosen for the bathtub.*

## ACCESSORIES

Ø 40 mm x L 34 mm

The package contains three hooks with M4 mounting screws

*The multipurpose Woodio® Hook is designed to complement bathrooms that feature Woodio® washbasins. They are also suitable for use as cupboard door handles and hooks in other spaces of the home.*

## INTERIOR PANEL

L 1197 mm x W 597 mm x H 6 mm

Square area 0.714 m<sup>2</sup>

M1 emissions class, fire resistance class F

*Woodio® Wall is designed for use as a kitchen backsplash.*

*Thanks to its versatile properties, it is also suitable for use elsewhere in the home. The panel is easy to install, cut and use.*

*It is waterproof, easy to keep clean, and resistant to both heat and impacts. Woodio® Wall offers the impression of a stone surface but without the weight of real stone, giving the space a unique look.*

## SOLID

L 2000 mm x W 760 mm x H 12 mm

M1 emissions class

*Woodio® Solid is a modern, wear resistant multipurpose material made of wood that combines innovation, unique appearance and durability. Woodio® Solid gives interior surfaces a stone- like impression without the burden of stone, allowing you to create unique visual décor from traditional to contemporary interiors.*

*Being easy to use and process, it is well-suited for bathroom surfaces and countless other purposes both at home and public spaces. The material can be processed as other wood based solid materials.*

## COLOR COLLECTION

*The colors of the collections are inspired by Nordic nature. The choice of colors ranges from harmonious wood color and shades of white to dramatic moss green and berry purple as well as earthen tones of brown.*

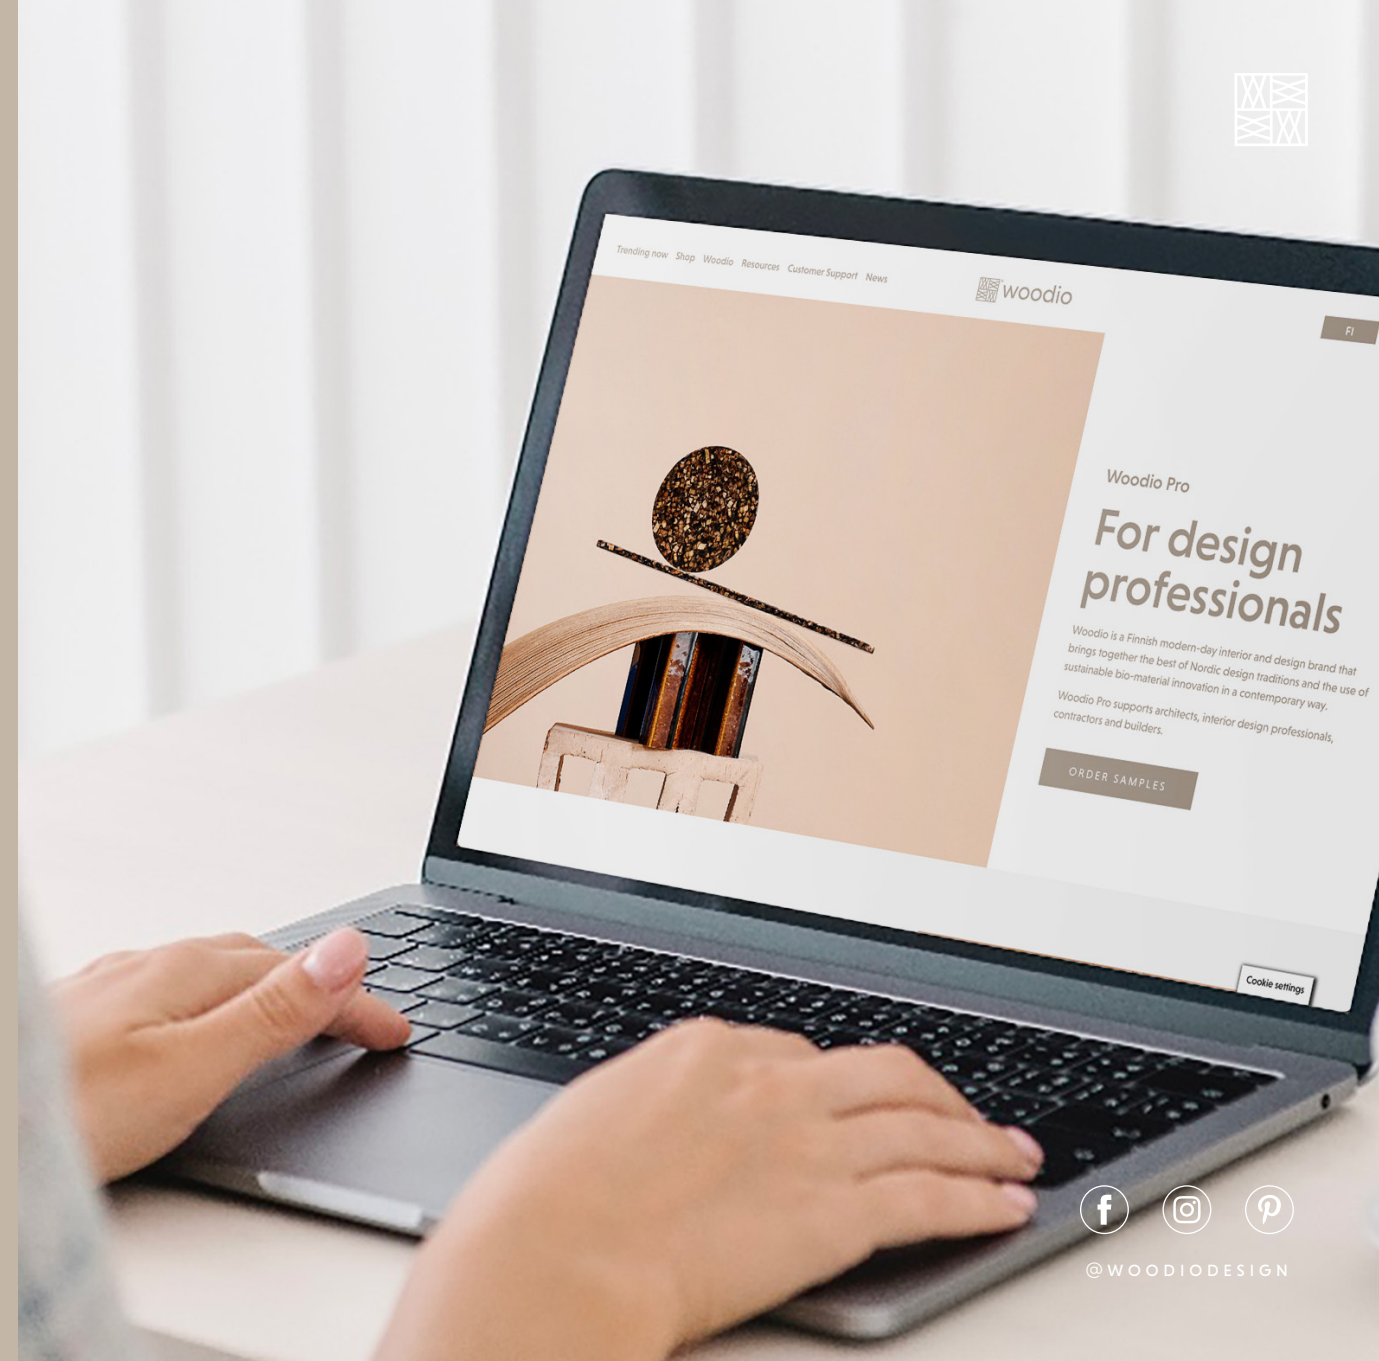

## SERVICES FOR PROFESSIONALS

*Our Woodio Pro team supports architects, interior designers, contractors and builders in both private and commercial interior projects such as hotels, offices, restaurants, shipping industry, shopping centers and spas.*

*We offer tools and solutions to our clients' needs, either from our standard collection or as custom commissions.*
